Motor und Verteilergetriebe

11.0504

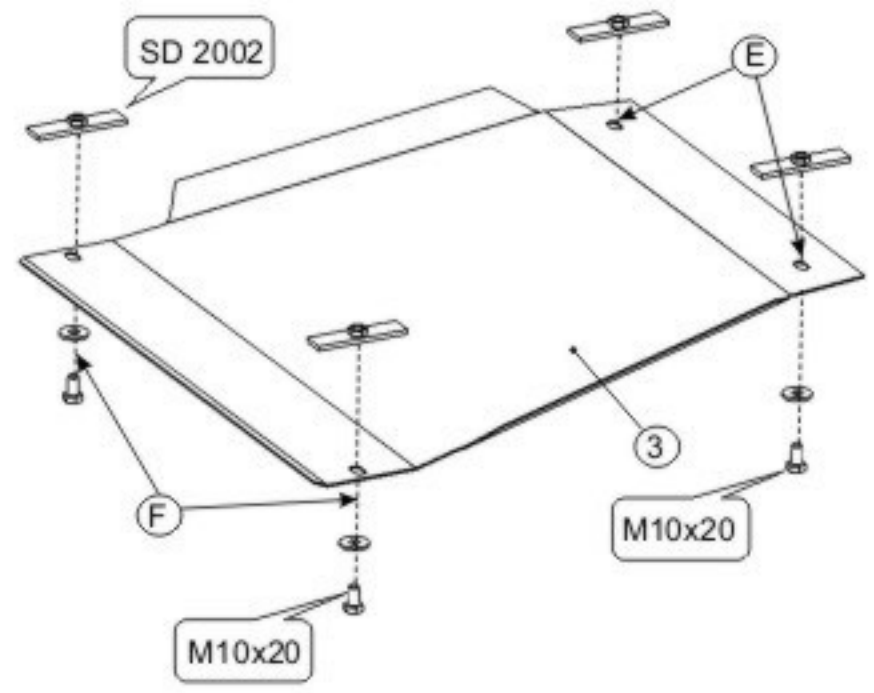

11.1155

1. Disassemble the skid plate to component parts.
2. Remove the dust-coat composed of one or two parts.

3. Fix the part of the skid plate "1", fastening it with M 10x20 bolts and the strap to the car frame.

4. Fix the part "2" to the standard fixation points of the dust-coat and fasten.

5. Fasten the part "3" with M 10x20 bolts and straps to the car frame.
6. Tighten all screw joints.
